Markham, Ontario, L3T 7M8

Re: Junior Data Warehouse and Business Intelligence Consultants

Dear Recruiter for Adastra:

I am excited for the possibility of bringing my talents to Adastra Corporation in the position of Junior Data Warehouse and Business Intelligence Consultants as advertised on Indeed. I am very impressed by the services such as business intelligence, data integration, and data quality that Adastra provides. With my excellent programming skills and solid understanding of DBMS, I am confident that I can make solid contributions to this team.

During my study at University of Waterloo, I achieved 3.90 out of 4.00 GPA. On top of that, I am proficient in programming in C++ for software development, utilizing DBMS (Oracle 11g, IBM DB2) for data management and applying GIS applications (ArcMap, ArcCatalog, FME) and techniques (Spatial Analysis, Network Analysis, Data Analysis & Management) to solve complex problems. With strong programming skills in C++, I have posted 10 projects on [Github](https://github.com). One of the projects is the Game of Quadris, a C++ implementation of Tetris which employed object-oriented software engineering techniques and graphical interface. What is more, I have nearly one year experience of using DBMS such as Oracle 11g and IBM DB2. One of the databases I have developed is the Digital Camera Purchasing System which I applied databases design techniques such as data modeling, entity relationship diagram, and SQL. In addition, I designed a spatial database for features on the campus of University of Waterloo by employing Oracle Spatial, data modeling, data integration, and data conversion techniques. With in-depth familiarity with GIS techniques and a strong foundation of computer science and ability to learn quickly, I am confident that I am one of the best candidates for this position in your team.

I would appreciate the opportunity to further discuss my potential opportunity at Adastra. I have attached my resume detailing my outstanding academic and strong technical skills.

Thank you, your time and consideration is highly appreciated. I look forward to speaking with you about this exciting opportunity.

Kindest Regards,

Renchen Sun
